Rain out policy

In the event of rain or bad weather the instructor will determine if the class is cancelled. The instructor will try to inform students of a cancellation within a half hour of class time (or sooner if possible). Please do not call the instructor or the office more than 30 minutes before your class. If you have not received a call then please proceed to the scheduled class.

All rain out classes are made up on the week immediately following the last scheduled class. If there are two or more classes to be made up then the instructor will need to schedule some classes outside of the usual class day and hours. This may include a Saturday or Sunday make-up class. The instructor will keep students informed as the session nears the end. We do not control the weather so please keep that rainout week as available as possible.
